WORK EXPERIENCE

WordPress Developer

GoAccelovate | Remote | Mar 2025 – Present

- Promoted from part-time contractor to full-time WordPress Developer after consistently delivering remote client website builds, front-end implementation, and ongoing project updates.
- Engineer custom WordPress themes and plugins for 10+ active client projects, reducing average delivery time by 20%.
- Optimized 5+ websites to reach 90+ Google PageSpeed scores through caching, lazy loading, and CDN integration.
- Integrate REST APIs and third-party services, expanding site functionality for e-commerce and SaaS clients.
- Convert Figma designs into pixel-perfect, mobile-responsive WordPress websites with zero cross-browser issues.

Senior WordPress Developer — Contract / Project-Based

Predawn Solutions | Remote | Feb 2025 – Aug 2025 (7 mos)

- Engineered scalable custom themes and plugins for US-based clients, cutting plugin load overhead by 30%.
- Performed performance audits and security hardening across 8+ production WordPress environments.

Senior WordPress Developer — Full-Time

XemenSolutions | Remote, Edmond, Oklahoma, USA | Nov 2024 – Feb 2025 (4 mos)

- Promoted to Senior after completing 150+ WordPress projects with consistent quality benchmarks.
- Improved average site performance scores by 35% through code refactoring, image optimization, and caching strategies.

- Implemented reusable plugin architectures and advanced theme customizations for enterprise-level US clients.
- Enforced code quality across the team through structured QA reviews and standardized coding conventions.

WordPress Developer — Full-Time

XemenSolutions | Remote, United States | May 2024 – Nov 2024 (6 mos)

- Built 50+ WordPress websites from scratch, converting Figma/XD designs into fully functional, responsive sites.
- Improved site load times by an average of 40% using performance optimization techniques, collaborating with US-based cross-functional teams to complete all milestones on schedule.

Web Designer — Full-Time

TAKVerge | On-site, Hyderabad, Sindh, Pakistan | Jun 2023 – Jun 2024 (1 yr 1 mo)

- Designed and launched visually compelling websites for clients across retail, hospitality, and services industries.
- Translated client briefs into polished UI designs using HTML5, CSS3, JavaScript, WordPress, and Adobe Creative Suite, achieving sign-off within 2 revision cycles on average.

Freelance WordPress Developer

Upwork | Remote | Feb 2022 – Present (4+ yrs)

- Completed 80+ freelance WordPress projects for international clients, contributing to 200+ total project completions.
- Developed WooCommerce stores, business websites, and custom landing pages, all optimized for SEO and Core Web Vitals.
- Managed full project lifecycles, including requirements gathering, Figma conversion, development, deployment, and post-launch support.
- Sustained 5-star client ratings by adapting to US remote workflows, clear written communication, and fast turnaround times.

SELECTED PROJECTS

Nōma Concept Store & Yoga Studio — WordPress Developer

nomaconcept.net | Lebanon

- Developed a custom WordPress and WooCommerce eCommerce website for a lifestyle concept store, combining online shopping, yoga classes, and community features.
- Built a standalone class booking system supporting 15+ class types across yoga, pilates, aerial yoga, and fitness disciplines.
- Customized WooCommerce product management and responsive layouts to align with brand identity, improving overall site performance and user experience.

Rennie Curran Leadership Coaching — WordPress Developer

renniecurran.com

- Developed a personal brand website for a keynote speaker, author, and leadership coach.
- Created custom WordPress pages spanning 4 coaching programs, published books, and media resources, plus an online shop with integrated contact forms and newsletter signup.
